Fix before you apply

We found 6 issue(s) in your DPR. Fix the 5 “must fix” item(s) before your BD submits to the bank.

Must fix — 5 issue(s)

Fuel cost does not match acres x litres/acre x price

p.8

Acres x litres/acre x price/litre = 9.12 lakh; the document states 7.2 lakh. **Do:** Verify this figure with the applicant.

Crew wages understated versus the staffing plan

p.8

Annexure staffing plan totals 3.3 lakh; the P&L states 2.4 lakh. **Do:** Verify this figure with the applicant.

Fund flow sources do not match applications

p.12

Sources of funds - Applications of funds (a nonzero result must appear as closing cash in the cash-flow statement, not be plugged away) Sources 102.65 lakh, applications 62.36 lakh, gap 40.29 lakh. **Do:** Verify this figure with the applicant.

Claimed annual acreage exceeds plausible machine throughput

p.4

Acres/day x operating days/season x seasons/year = 600 acres/year; the document plans for 1200. **Do:** Verify this figure with the applicant.

Dealer quotation missing for the harvester

p.3

No vendor quotation or pro-forma invoice is attached for the stated 30.00 lakh cost. **Do:** Attach an authorised dealer’s quotation matching the stated project cost.

Should fix — 0 issue(s)

No should-fix issues were found.

Good to fix — 1 issue(s)

DSCR YEAR 1: 1.97 Dscr

Computed from the document's own net profit, depreciation, interest and repayment figures for this year. The document itself states a DSCR of 1.58 for this year. The difference from our standard-formula figure usually means the document's own convention does not add interest back into the numerator – not that either figure is wrong. Confirm which convention the lender expects.

Your project

Activity
Custom Hiring Centre – AS-930 combine harvester

Location
Nachanwara, Tikamgarh

₹ 7.50 lakh

Requested loan · 75%
₹ 22.50 lakh

Capital subsidy
None identified

Corrections needed in your DPR

ITEM	YOUR DPR	SHOULD BE	WHY
Fuel cost does not match acres x litres/acre x price	~~7.2 lakh~~	**9.12 lakh**	Acres x litres/acre x price/litre = 9.12 lakh; the document states 7.2 lakh.
Crew wages understated versus the staffing plan	~~2.4 lakh~~	**3.3 lakh**	Annexure staffing plan totals 3.3 lakh; the P&L states 2.4 lakh.
Claimed annual acreage exceeds plausible machine throughput	~~1200 acres/year~~	**600 acres/ year**	Acres/day x operating days/season x seasons/year = 600 acres/year; the document plans for 1200.

Corrections are computed from figures in your own DPR.

Can you repay the loan?

On the figures in this DPR, Year-1 earnings cover repayment 1.97× (standard formula). See below for why your DPR's own figure differs.

SCENARIO	DSCR (YEAR 1)	BREAK-EVEN (ACCOUNTING)	BREAK-EVEN (CASH)	BREAK-EVEN (DSCR = 1.0)
Using your DPR's costs	1.97×	622 acres/year	193 acres/year	483 acres/year
If flagged fuel and crew corrections are confirmed Illustrative scenario, not a DPR fact	1.49×	726 acres/year	226 acres/year	563 acres/year

Why your DPR shows a different number

Your DPR states (Year 1)

1.58×

Profit + depreciation ÷ repayment. Leaves interest out of earnings.

Standard bank formula (Year 1)

1.97×

Adds interest back into earnings before comparing to repayment.

Year-1 repayment

Later years: per sanction

YEAR 1	PRINCIPAL	INTEREST	TOTAL REPAYMENT
As in your DPR	₹ 3.21 lakh	₹ 2.03 lakh	**₹ 5.24 lakh**

Security and your obligations

What protects the loan, how the money is paid out, and what you must do after delivery.

SECURITY	DETAILS	VALUE	STATUS
Machine (hypothecation)	The AS-930 combine harvester is the bank's security until the loan is repaid	₹ 30.00 lakh	Included
Credit guarantee	A scheme credit guarantee may reduce other security needed	—	To verify
Land or other collateral	Not assessed by this analysis	—	Confirm with lender
Guarantor	Not assessed by this analysis	—	Confirm with lender
Machine insurance	First year included in the ₹ 30.00 lakh cost; renew every year, bank as loss payee	In cost	Renew yearly

How the loan is paid out

1
You pay your share
₹ 7.50 lakh to the dealer first

2
The lender pays the dealer
₹ 22.50 lakh against the invoice

3
Bank records its charge
Equipment registered as security

No cash is paid to you. Funds go directly to the equipment dealer against invoice.

After you receive the equipment

- [ ] Send a geo-tagged photo of the equipment with its serial number — Within 30 days of delivery
- [ ] Pay each instalment on time — As per sanction
- [ ] Keep a dealer service agreement for in-season breakdowns — Renew before each season
- [ ]

Renew machine insurance with the bank as loss payee	Every year
☐ Ask the bank before selling, moving or lending out the equipment	Any time

Your benefits and next steps

Capital subsidy

None identified

No applicable capital subsidy has been verified from the available sources.

Eligibility checklist

REQUIREMENT	WHAT WE FOUND	STATUS
Your contribution	₹ 7.50 lakh	Met
Must-fix issues from page 2	5 unresolved	Action needed
Outstanding clarifications	None outstanding	Met
